Contract, the successful Candidate will become the Contractor and the Contract will enter into force once signed by the Contracting Authority.

If the successful Candidate fails to sign and return the Contract within the days stipulated, the Contracting Authority may consider the acceptance of the proposal to be cancelled without prejudice to the Contracting Authority's right to claim compensation or pursue any other remedy in respect of such failure, and the successful Candidate will have no claim whatsoever on the Contracting Authority.

ANNEX 1: TERMS OF REFERENCE

Consultant for integration of GBV prevention & response into DCA Cash & Voucher Assistance (CVA)

The service is requested for a project entitled “Integration of Cash and Voucher Assistance (CVA) with gender and Gender Based Violence (GBV) for DCA” – an intervention targeting DCA Country Offices and DCA’s Local Partners.

BACKGROUND AND PURPOSE OF THE CONSULTANCY

The uptake of cash as a modality in GBV prevention and inclusion of GBV and gender outcomes in Cash and Voucher Assistance (CVA) is on the rise. Based on emerging global learnings and standards on the integration of CVA and GBV, DCA seeks to explore how the organisation can bring GBV and gender concerns into the mainstream in DCA’s humanitarian programmes.

Most GBV actors do not engage in cash and voucher assistance as cash or vouchers are still emerging modalities in the GBV field. Meanwhile, gender outcomes as a result of cash assistance are proven to be anecdotal rather than targeted outcomes during project design phases. Donors are increasingly requesting strong gender and protection mainstreaming and direct delivery of protection activities. The lack of inclusion of protection and gender analysis at every stage of the project cycle can have potentially harmful effects on communities and individuals. This project will engage with DCA’s country offices to determine the barriers to stronger gender and protection mainstreaming and assess the tools and guidelines that are needed for DCA and partners to engage directly with GBV actors in integrating prevention of GBV as well as two-way referrals to GBV response modalities.

DCA’s existing global capacities in cash and voucher assistance is a starting point for DCA to fill the thematic gap on GBV and protection integration in humanitarian response. At a thematic level, cash transfers can be used to mitigate or address gender-specific damaging coping strategies such as transactional sex, child marriage, intimate partner violence and other types of abuses. GBV actors are present in many of the contexts that DCA operates in but are risk averse and do often not use cash as a tool to address underlying risks of GBV connected to economic issues. Additionally, DCA and partner staff need tools to conduct contextual analysis of gender and protection risks related to cash programmes.

The expected outcomes from this consultancy is two-pronged:

1. DCA’s country offices and partners have the tools and capacity to deliver cash and voucher assistance to GBV survivors and people at risk in coordination with GBV actors (GBV response focused).
2. DCA’s country offices and partners are able to apply a stronger protection and gender/GBV lens in design phases and throughout project cycles, including defining specific gender and GBV outcome indicators as part of cash and voucher assistance programmes (GBV prevention focused).

DCA has more than 10 years of global experience on delivering cash and voucher assistance as part of humanitarian response programmes. With an increased focus on setting gender outcomes and referring GBV survivors to cash assistance, DCA is now looking to hire an external consultant to lead the project and suggest guidelines for how DCA can work strategically with Gender and GBV in cash assistance. The project is funded by DANIDA.

SCOPE OF WORK AND EXPECTED OUTPUTS

1. In-depth analysis of the potential of using cash as a modality in GBV prevention and response in DCA’s programmes and the need for tools and guidelines to support this. This will include:
   a. Send out scoping survey (survey monkey) and provide feedback based on the responses
   b. Engage in an early webinar (start up for consultant) to consult country offices and exchange experiences and challenges
2. Continuously engage with DCA humanitarian programmes with interest in the topic
3. Desk research and interviews with actors that engage in this in other contexts already including mapping of existing tools and resources (WRC, IRC, Mercy Corps, Protection Task Team, others)
4. Deliver inputs to FABO site (online learning platform) in cooperation with DCA Learning Lab to collect resources and develop an easily accessible learning site
5. Analysis of existing opportunities in DCA’s humanitarian portfolio including mapping of existing and potential coordination and collaboration with protection actors (including access to engage in this in the various contexts)
6. Field visit and research in 1 of DCA’s focus countries based on identified opportunities
7. Development of proposed guidelines and tools for DCA country offices and local partners to strengthen their engagement in integrating GBV and CVA moving forward
8. Webinars and other online discussions with relevant staff and partners in country offices on the guidelines and tools
9. Contribute to the development of visuals / short videos for the Fabo site
10. Finalise documentation and support countries to push forward with CVA and GBV integrated prevention and response approaches respectively
11. Training of relevant DCA HQ staff in the approach to include in future CVA and gender trainings and general consultations with country offices on project design and implementation

DELIVERABLES AND REPORTING
The consultant will be reporting to mainly two DCA staff members based in Copenhagen; DCA’s Global Humanitarian Advisor specialised in Cash and Markets and DCA’s Senior Policy Advisor on Gender. As part of the consultancy, the consultant is expected to travel to Copenhagen to engage with the advisors and other relevant staff in DCA Headquarters. Frequent skype meetings will be arranged over the course of the consultancy. Relevant tools and guidelines must be developed in consultation with DCA country offices. By the end of the period, DCA expects a final report documenting the process, recommendations and way forward for DCA’s engagement in integrated approaches to CVA and GBV.

TIMEFRAME
The consultancy is planned to be carried out between 1 April 2019 – 30 June 2019. The consultant will finalise the schedule to meet the above specific outputs together with relevant DCA staff.

EXPECTED TRAVEL
There will be one travel scheduled of up to 2 weeks duration. The destination will be to one of DCA’s humanitarian programmes, hence the consultant must be willing to travel in remote and potentially crisis-affected contexts. Travel dates and destination is not fixed and will be organised in consultation.

Travel insurance in relation to travels outside of Europe are covered by DCA.

If located elsewhere than Copenhagen, the consultant is expected to travel to Copenhagen two times during the consultancy.

The Contractor must inform the Contracting Authority of all non-expert personnel it intends to use for the implementation of the contract. The Contracting Authority shall have the right to oppose the Contractor’s choice of personnel.

13.2. No changes shall be made in the personnel without the prior consent of the Contracting Authority. The Contractor shall provide a replacement with at least equivalent qualifications and experience and acceptable to the Contracting Authority if:

a) on account of death, sickness or accident, a member of the Personnel is unable to continue providing his services,

b) any member of the personnel is found by the Contracting Authority to be incompetent in discharging or unsuitable for the performance of his duties under the Contract,

c) for any reasons beyond the control of the Contractor, it becomes necessary to replace any member of the Personnel.

The request for replacement must be made in writing and state the reasons therefore. The Contractor shall proceed swiftly with the request and propose a replacement with at least equivalent qualifications and experience. The remuneration to be paid to the replacement cannot exceed that received by the replaced member of the personnel.

Failure by the Contractor to propose a replacement for a key expert satisfactory to the Contracting Authority, shall give the right to the Contracting Authority to terminate the contract.

Additional costs arising out of a replacement shall be borne by the Contractor.

13.3. Working hours
The days and hours of work of the Contractor or/and its personnel in the beneficiary country shall be fixed on the basis of the laws, regulations and customs of the beneficiary country and the requirements of the services.

13.4. Leave entitlement
Any taking of holiday leave by the personnel during the period of implementation of the contract must be at a time approved by the Contracting Authority.

Overtime, sick leave pay and holidays leave pay are deemed to be covered by the Contractor’s remuneration.

14. SUB-CONTRACTING
Except from the subcontractors listed in the contract, the Consultant shall not subcontract to nor engage another independent contractor to perform any part of the services without the prior written consent of the Contracting Authority. Subcontractors must satisfy the eligibility criteria applicable for the award of the contract.

The Contracting Authority shall have no contractual relations with the subcontractors. The provisions of the contract, including these general terms and conditions, and in particular article 13.2 shall, where practicable, apply to the subcontractors and their personnel.

15. LIABILITY
At its own expense, the Contractor shall indemnify, protect and defend, the Contracting Authority, its agents and employees, from and against all actions, claims, losses or damages arising from any act or omission by the Contractor in the performance of the services, including any violation of any legal provisions, or rights of third parties, in respect of patents, trademarks and other forms of intellectual property such as copyrights.

Approval by the Contracting Authority of the Contractor’s reports and issue of Completion Certificate shall not relieve the Contractor of its liability and shall not prevent the Contracting Authority from claiming damages.

The Contractor shall remain liable for any breach of its obligations under the contract for such period after the services have been performed as may be determined by the law governing the contract (the “liability period”). This time limit does not however apply when the damage arises from gross negligence or willful misconduct of the Contractor.

During the liability period, or as soon as practicable after its expiration, the Contractor shall, at its expense, upon instruction of the Contracting Authority, remedy any deficiencies in the performance of the services. In case of default on the part of the Contractor to carry out such instructions, the Contracting Authority shall be entitled to hire another contractor to carry out the same, at the Contractor’s expense.

16. INSURANCE
Within 20 days of signing the contract, the Contractor shall take out and maintain, at its own cost, a full indemnity insurance policy covering its professional liability under the contract and article 15 above, from the commencement date and until the end of the liability period.

Within 20 days of signing the contract, the Contractor shall take out and maintain a full indemnity insurance policy for a sum up to the higher of the maximum amount foreseen by the legislation of the country of the Contracting Authority and the amount foreseen by the legislation of the country in which the Contractor has its headquarters and covering, during the period of implementation of the contract, the following risks:

a) loss of or damage to property purchased with funds provided under the contract by the Contracting Authority;

b) loss or damage to equipment, material and office facilities made available to the Contractor by the Contracting Authority;

c) civil liability for accidents caused to third parties arising out of acts performed by the Contractor, its personnel and their dependents;

d) employer’s liability and workers’ compensation in respect of the personnel as well as sickness, accident or death affecting the personnel and their dependents, including the cost of repatriation on health grounds;

e) such other insurance as required by the laws in force in the beneficiary country.

Prior to the commencement date, the Contractor shall provide evidence to the Contracting Authority that the above insurances have been effected. During execution of the contract, the Contractor shall, when required, provide the Contracting Authority with copies of the insurance policies and the receipts for payment of premiums.

17. INTELLECTUAL AND INDUSTRIAL PROPERTY RIGHTS
All reports and data such as maps, diagrams, drawings, specifications, plans, statistics, calculations, databases, software and supporting records or materials acquired; compiled or prepared by the Contractor in the performance of the contract shall, with the copyright thereto, be the absolute property of the Contracting Authority. The Contractor shall, upon completion of the contract, deliver all such documents and data to the Contracting Authority. The Contractor may not retain copies of such documents and data and shall not use them for purposes unrelated to the contract without the prior written consent of the Contracting Authority.

The Contractor shall not publish articles relating to the services or refer to them when carrying out any services for others, or divulge information obtained from the Contracting Authority, without the prior written consent of the Contracting Authority.

18. RECORDS
The Contractor shall keep separate, accurate and systematic records and accounts in respect of the services in such form and detail as is customary in the profession and sufficient to establish accurately that the number of working days and the actual reimbursable expenditure identified in the Contractor’s invoice(s) have been duly incurred for the performance of the services.
For a fee-based contract, timesheets recording the days worked by the Contractor’s personnel must be maintained by the Contractor. The timesheets must be approved by the Contracting Authority or any person authorised by the Contracting Authority or the Contracting Authority itself on a monthly basis. The amounts invoiced by the Contractor must correspond to these timesheets. In the case of long-term experts, these timesheets must record the number of days worked. In the case of short-term experts, these timesheets must record the number of hours worked. Time spent travelling exclusively and necessarily for the purpose of the Contract may be included in the numbers of days or hours, as appropriate, recorded in these timesheets.

Such records must be kept for a 7-year period after the final payment made under the contract. These documents comprise any documentation concerning income and expenditure and any inventory, necessary for the checking of supporting documents, including timesheets, plane and transport tickets, pay slips for the remuneration paid to the experts and invoices or receipts for reimbursable expenditure. Failure to maintain such records constitutes a breach of contract and will result in the termination of the contract.

19. OBLIGATIONS OF CONTRACTING AUTHORITY

19.1. The Contracting Authority shall provide the Contractor as soon as possible with any information and/or documentation at its disposal which may be relevant to the performance of the contract. On all matters properly referred to it in writing by the Contractor, the Contracting Authority shall give its decisions so as not to delay the services, and within a reasonable time.

19.2. The contract shall specify whether the Contracting Authority is to provide the Contractor with equipment, facilities, counterpart personnel or specific assistance, and shall detail under which conditions. If the provision of such agreed counterpart personnel, equipment, facilities and assistance is delayed or not forthcoming, the Contractor shall endeavour to perform the Services as far as is possible. The parties shall agree on how the affected parts of the services shall be carried out, and the additional payments, if any is due, to be made by the Contracting Authority to the Contractor as a result of additional expenditures.

20. CONTRACT PRICE AND PAYMENTS

Contracts are either “global price” or “fee-based”.

20.1. Fee-based contract

In consideration of the services performed by the Contractor under the contract, the Contracting Authority shall make to the Contractor such payments of fees and such reimbursement of costs as provided in the contract.

Fees shall be determined on the basis of time actually spent by the key experts in the performance of services at the fee rates specified in the contract. Fee rates are deemed to remunerate all the activities of the Contractor in the performance of the services and to cover all expenses and costs incurred by the Contractor which are not included in the agreed reimbursable costs.

The Contracting Authority shall reimburse to the Contractor the reimbursable costs and expenses specified in the contract, actually and reasonably incurred in the performance of the services.

Costs and expenses which are not mentioned in the contract shall be deemed covered by the overhead of profit included in the fees.

The currency of payments of fees and reimbursable costs and applicable exchange rates are set out in the contract.

20.2. Global price contract

The global price covers both the Contractor’s and its personnel’s fees and all expenses to be incurred for the performance of the contract. The global price is in consideration for all obligations of the Contractor under the contract and all matters and things necessary for the proper execution and completion of the services and the remedying of any deficiencies therein.

20.3. Revision

Unless otherwise stipulated in the contract, the global price of a global price contract and the fee rates of a fee-based contract shall not be revised.

20.4. Guarantees

In the case an advance payment for fees and for reimbursable costs (fee-based contract) or a pre-financing payment (global price contract) is agreed in the contract, its payment by the Contracting Authority shall be subject to the prior presentation by the Contractor to the Contracting Authority of an approved performance security, advance payment or pre-financing guarantee, if so agreed and under the conditions specified in the Service Contract.

20.5. Conditions of Payment

Payments will be made by the Contracting Authority with the frequency, instalments, time limits, amounts and currencies, and under the conditions, in particular on the contents of invoices, specified in the special conditions of the contract. Payment of the final balance shall be subject to performance by the Contractor of all its obligations under the contract and the issue of the Contracting Authority of the completion certificate described in article 25.

20.6. Late payment

If the time periods laid down for payments by the Contracting Authority have been exceeded by more than two months and where the Contracting Authority cannot invoke a case of suspension or withholding of payments provided for in these terms and conditions, the Contractor may claim interest calculated on any amount due, prorate on the number of days of delay at the official rate of the beneficiary country (if amounts due are in the currency of that country), or at the rate applied by the European central bank (where amounts due are in Euro), plus 2% per year.

21. DELAYS IN PERFORMANCE

If the Contractor does not perform the services within the period of implementation specified in the contract, the Contracting Authority shall, without formal notice and without prejudice to its other remedies under the contract, be entitled to liquidated damages for every day, or part thereof, which shall elapse between the end of the period of implementation specified in the contract and the actual end of the period of implementation.

The daily rate for liquidated damages is calculated by dividing the contract value by the number of days of the period of implementation. If these liquidated damages exceed more than 15% of the contract value, the Contracting Authority may, after giving notice to the Contractor:

a) terminate the contract; and
b) complete the services at the Contractor’s own expense

22. BREACH OF CONTRACT

Either party commits a breach of contract where it fails to discharge any of its obligations under the contract.

Where a breach of contract occurs, the party injured by the breach shall be entitled to the following remedies:

a) liquidated damages; and/or
b) termination of the contract.

In any case where the Contracting Authority is entitled to damages, it may deduct such damages from any sums due to the Contractor or call on the appropriate guarantee.

The Contracting Authority shall be entitled to compensation for any damage which comes to light after the contract is completed in accordance with the law governing the contract.

23. SUSPENSION OF PERFORMANCE

The Contractor shall, on the request of the Contracting Authority, suspend the performance of the services or any part thereof for such time and in such manner as the Contracting Authority may consider necessary.
In such event of suspension, the Contractor shall take immediate action to reduce the costs incident to the suspension to a minimum. During the period of suspension, and except where the suspension is due to any default of the Contractor, the Contractor shall be reimbursed for additional costs reasonably and necessarily incurred by it as a result of the suspension.

24. AMENDMENT OF THE CONTRACT
Substantial modifications to the contract, including modifications to the total contract amount, must be made by means of an addendum.

   h) the Contractor fails to provide the required guarantees or insurance, or the person providing the underlying guarantee or insurance is not able to abide by its commitments.

26.2 Termination by Contracting Authority for convenience
The Contracting Authority may terminate the contract in whole or in part for its convenience, upon not less than 14 days’ notice. The Contracting Authority shall not use this right of termination in order to arrange for the services to be executed by another contractor, or to avoid a termination of the contract by the Contractor.

27. TERMINATION BY THE CONTRACTOR
The Contractor may terminate the contract after giving a 7 days’ notice to the Contracting Authority in any of the following cases:
   a) the Contractor has not received payment of that part of any invoice which is not contested by the Contracting Authority, within 90 days of the due payment date;
   b) the period of suspension of the performance of the contract under article 23 has exceeded six months;

If the Contractor is a natural person, the contract shall be automatically terminated if that person dies.

28. RIGHTS AND OBLIGATIONS UPON TERMINATION

   d) in case of termination under article 26.2 and 27, reimbursement for the actual and reasonable costs incurred by the Contractor as a direct result of such termination and which could not be avoided or reduced by appropriate mitigation measures.

The Contractor shall not be entitled to claim, in addition to the above sums, compensation for any loss or injury suffered.

28.3. In case of termination of the contract for any reason whatsoever, any pre-financing guarantee which might have been granted to the Contracting Authority under article 20.4, may be invoked forthwith by the Contracting Authority in order to repay any balance still owed to the Contracting Authority by the Contractor, and the guarantor shall not delay payment or raise objection for any reason whatever.

28.4. If the Contracting Authority terminates the contract under article 26.1, it shall be entitled to recover from the Contractor any loss it has suffered up to that part of the contract value which corresponds to that part of the services which has not, by reason of the Contractor’s default, been satisfactorily completed.

If either party considers that any circumstances of force majeure have occurred which may affect performance of its obligations it shall notify the other party immediately giving details of the nature, the probable duration and likely effect of the circumstances. Unless otherwise directed by the Contracting Authority in writing, the Contractor shall continue to perform its obligations under the contract as far as is reasonably practicable, and shall seek all reasonable alternative means for performance of its obligations which are not prevented by the force majeure event. The Contractor shall not put into effect such alternative means unless directed so to do by the Contracting Authority.

By this Code of Conduct, the Contracting Authority applies ethics to procurement. We expect our contractors to act socially and environmentally responsible and actively work for the implementation of the standards and principles in this Code of Conduct. The Code of Conduct is applicable for all our contractors who supply goods, services and works to our operations and projects.

This Code of Conduct and its related principles and standards are based on recommendations from the Danish Initiative for Ethical Trade (DIEH), the UN Global Compact principles and ECHO’s Humanitarian Aid Guidelines for Procurement 2011.

General Conditions
The Code of Conduct defines the ethical requirements and standards for our contractors, whom we expect to sign and respect the Code of Conduct, and work actively towards the implementation hereof. By signing the Code of Conduct contractors agree to place ethics central to their business activities.

The provision of the ethical standards constitutes minimum rather than maximum standards. International and national laws shall be complied with, and where the provisions of law and the Contracting Authority’s standards address the same subject, the highest standard shall apply. It is the responsibility of the contractor to assure that their contractors and subcontractors comply with the ethical requirements and standards set forth in this Code of Conduct.

The Contracting Authority acknowledge that implementing ethical standards and ensuring ethical behaviour in our supply chain is a continuous process and a long term commitment for which we also have a responsibility. In order to achieve high ethical standards for procurement we are willing to engage in dialogue and collaboration with our contractors. In addition we expect our contractors to be open and willing to engage in dialogue with us to implement ethical standards for their businesses. Unwillingness to co-operate or serious violations of the Code of Conduct will lead to termination of contracts.

Human Rights and Labour Rights
Contractors must at all times protect and promote human- and labour rights and work actively to address issues of concern. As a minimum they are obliged to comply with the following ethical standards:

- Respect for Human Rights (UN Universal Declaration of Human Rights)
  The basic principles of the Universal Human Rights are that all human beings are born free and equal in dignity and in rights, and everyone has the right to life, liberty and security of the person. Contractors must not flaunt their responsibility to uphold and promote the Human Rights toward employees and the community in which they operate.

- Non exploitation of Child Labour (UN Child Convention on the Rights of the Child, and ILO Convention C138 & C182)
  Contractors must not engage in the exploitation of child labour and contractors must take the necessary steps to prevent the employment of child labour. A child is defined as a person under the age of 18 and children shall not be engaged in labour that compromise their health, safety, mental and social development, and schooling. Children under the age of 15 (in developing countries 14) may not be engaged in regular work, but children above the age of 13 (in developing countries 12) can be engaged in light work if it does not interfere with compulsory schooling and is not harmful to their health and development.

- Employment is freely chosen (ILO Convention C29 & C105)
  Contractors must not make use of forced or bonded labour and must respect workers freedom to leave their employer.

- Freedom of association and the right to collective bargaining (ILO Convention C87 & C98)
  Contractors must recognise workers right to join or form trade unions and bargain collectively, and should adopt an open attitude towards the activities of trade unions (even if this is restricted under national law).

- Living wages are paid (ILO convention C131)
  As a minimum, national minimum wage standards or ILO wage standards must be met by contractors. Additionally a living wage must be provided. A living wage is contextual, but must always meet basic needs such as food, shelter, clothing, health care and schooling and provide a discretionary income which is not always the case with a formal minimum wage.

- No discrimination in employment (ILO Convention C100 & C111 and the UN Convention on Discrimination against Women)
  Contractors must not practice discrimination in hiring, salaries, job termination, retiring, and access to training or promotion - based on race, national origin, caste, gender, sexual orientation, political affiliation, disability, marital status, or HIV/AIDS status.

- No harsh or inhumane treatment of employees (ILO Convention C105)
  The use of physical abuse, disciplinary punishment, sexual abuse, the threat of sexual and physical abuse, and other forms of intimidation may never be practiced by contractors.

- Working conditions are safe and hygienic (ILO Convention C155)
  Contractors must take adequate steps to provide safe and hygienic working environments. Additionally workers safety must be a priority and adequate steps must be taken to prevent accidents and injury to health associated with or occurring in the course of work.

5 Discretionary income is the amount of an individual's income that is left for spending, investing, or saving after taxes and personal necessities (such as food, shelter, and clothing) have been paid.
• Working hours are not excessive (ILO Convention C1 & C14)

Contracts must ensure that working hours comply with national law and international standards. A working week of 7 days should not exceed 48 hours and employees must have one day off per week. Overtime shall be compensated, limited and voluntary.

• Regular employment is provided (ILO Convention C143)

All Work performed must be on the basis of a recognised employment relationship established through international conventions and national law. Contractors must protect vulnerable group’s regular employment under these laws and conventions and must provide workers with a written contract.

International Humanitarian Law

Contractors linked to armed conflicts or operating in armed conflict settings shall respect civilian’s rights under International Humanitarian Law and not be engaged in activities which directly or indirectly initiate, sustain, and/or exacerbate armed conflicts and violations of International Humanitarian Law. Contractors are expected to take a ‘do no harm’ approach to people affected by armed conflict.

Additionally, Contractors shall not be engaged in any other illegal activity.

Involvement in Weapon Activities

The Contracting Authority advocates for the Ottawa Convention against landmines and the Convention on Cluster Munitions against cluster bombs. Contractors shall not engage in any development, distribution, sale, or manufacturing of anti-personnel mines, cluster bombs, components, or any other weapon which feed into violations of International Humanitarian Law and Human Rights.

Protection of the Environment

The Contracting Authority wishes to minimise the environmental damages applied to nature via our procurement activities and we expect our suppliers and contractors to act in an environmentally responsible manner. This involves respecting applicable national and international environmental legislation and acting in accordance with the Rio Declaration.

As a minimum contractors should address issues related to proper waste management, ensuring recycling, conservation of scarce resources, and efficient energy use.

Anti-Corruption

Corruption is by the Contracting Authority defined as the misuse of entrusted power for private gain and it includes bribery, fraud, embezzlement and extortion. The Contracting Authority holds a great responsibility to avoid corruption and ensure high standards of integrity, accountability, fairness and professional conduct in our business relations. Contractors are expected to have the same approach by undertaking good and fair business ethics and practices, take action to prevent and fight corruption, and abide by international conventions as well as national and international laws. To fight corruption and promote transparency, contractors who are confronted with corrupt practices are advised to file a complaint in a Complaint Mechanism. A contractor’s involvement in any form of corrupt practice during any stage of a selection process, in relation to the performance of a contract or in any other business context is unacceptable and will lead to the rejection of bids or termination of contracts.
